ACADEMIC PROJECTS	
• Image Captioning and Hashtag Generator	(2021)
A deep learning project created for automatically generating captions and automated hashtags.	
• Responsive Website Frontend Portfolio	(2022)
Developed the complete frontend of the website and integrating with backend.	
• Network Monitoring Tools and Backup Log save	(2023)
Full stack Django project for network diagnostic and monitoring.	
• Car Parking AI	(2022)
Python code only using Threshold pixels.	
• Multiple Object Tracking	(2022)
Training dataset using YOLOv5 Model, to detect any video and label the moving objects.	
ACADEMIC & EXTRACURRICULAR ACHIEVEMENTS & AWARDS	
• Certificate of Excellence for Data Structures and Algorithms in C++ course, Coding Ninjas.	(2021)
• Achieved NDG Linux Essentials certificate by Cisco Networking Academy.	(2022)
• Experience in early Competitive Programming: CodeChef: Highest Rating 1606 (3 stars). Best Finish: Starters 75 Division 3 (Rated) 2023 Global Rank: 223.	
TECHNICAL SKILLS	
C++, Python, Django, AI, ML & Deep Learning, OOPS, MySQL, HTML, CSS & JS, Linux
